

Martin Andonov

JUNIOR SOFTWARE DEVELOPER

About Me

Day of birth:

27.02.2001

I am currently pursuing a degree in software engineering and I'm eager to expand my knowledge and skills in this particular field. I am actively seeking new opportunities such as internships, projects, or workshops to gain hands-on experience and learn from experts in the industry.

Education

(2019 - Present)

PU "PAISII HILENDARSKI"
PLOVDIV, BG

I've learned the basics of programming and applied them to programming languages like C#, Java and PHP. I have firm knowledge of relational database management systems, including MySQL and SSMS. I'm fluent in English, Bulgarian and Macedonian.

(2015 - 2019)

SSOU "KOLE NEDELKOVSKI"
VELES, MK

During my time as a high school student, I was exposed to the fundamental principles of automating various processes and machinery. It was during this time that I was introduced to the rudimentary concepts of programming, and the first programming language I had the opportunity to work with was Pascal.

Technical skills

Python PHP HTML CSS
SQL Java JavaScript

I've worked on projects such as:

- Tic-Tac-Toe in Python;
- Weather API app built with Flask;
- Various side projects in Python;
- Extraction of data from an API with PHP;
- Displaying data with Wolfram Mathematica.

On a daily basis, I'm searching for new projects and tasks to complete and tackle, with the main goal being gaining deeper knowledge in the vast field of Software Engineering.

Soft skills

Adaptability & Flexibility

Quick learning

Teamwork and Collaboration

Self-management

I'm a quick learner and highly adaptable, which has contributed to my academic achievements and personal growth. I'm proficient in both written and verbal English, which has helped me excel academically and communicate effectively with people from all walks of life.

Professional Experience

(2015-2018)

Fresh Company

ASSISTANT TO A COMPUTER REPAIRMAN

Tasks I've been assigned include:

- Repairing desktop and laptop computers;
- Reinstalling of an operating system;
- Selling computer hardware.

Interests

My passion for Artificial Intelligence is evident in my free time, where I actively seek out new knowledge and insights to contribute to the field's growth and development.

Additionally, I find chess to be a challenging and intellectually stimulating hobby, where I engage with others and continuously learn new strategies and techniques to keep my mind sharp.

Overall, I am an ambitious and committed individual who is always seeking to grow and develop both personally and professionally.
